Tests of a Prophet

To know whether or not someone is a prophet, we must use the tests. We can find all of the tests of a prophet in the Bible.

1. **Isaiah 8:20 - Agree with the Bible.**
   We test prophets by comparing what they say with what the Bible says. A true prophet will never contradict

2. **Matthew 7:15-20 - Bear good Fruit.**
   This test takes time, as fruit doesn’t ripen overnight. By seeing the prophet’s actions and watching what results from the messages, we can see if the person is drawing others to God’s ways or leading them in a wrong direction.

3. **Jeremiah 28:9 - Fulfilled Predictions.**
   If someone predicts something that doesn’t happen, we can know that the person is a false prophet. Sometimes whether something happens or not can depend on how people respond to God’s messages.

4. **1 John 4:1-3 - Jesus is the Center.**
   A true prophet believes and teaches that Jesus is fully God and also completely human and that He came and lived and died for us. True prophets love Jesus and make Jesus the most important part of their work.
